städtebau

RWTHAACHEN
UNIVERSITY

The Chair and the Institute of Urban Design...

...deal with **complex urban structures**:

from a regional and citywide context up to the neighbourhood and building level. Their focus is on design and further development of cities and neighbourhoods towards sustainability, based on historically grown urban structures and taking their technical, ecological, economic and sociocultural conditions into account.

Technical innovations, digitalization and globalization are changing forms of living and working, as well as the overall urban fabric. In this context, and considering the spatial relevance of such transformation processes, urban design is challenged to think and shape the best possible environment for all.

Thinking the Future
Zukunft denken

Teaching

B.Sc. Architektur

- Design Basics – Urban Design
- Course Urban and Landscape Planning Basics - Urban History
- Social, Economic and Legal Basics- Building and Planning Law
- Methods of Urban Design Visualization
- Integrated Project in City and Landscape
- Elective Design Studio
- Bachelor Thesis

M.Sc. Architektur | M.Sc. Stadtplanung

- Urban and Regional Planning
- Technical Infrastructures and Planning Law
- Fields of Research of Architecture and Urban Planning
- Impromptu Design - Architecture/urban planning
- Project M1 - Architecture/urban planning
- Project M2 - Architecture/urban planning
- Project M3 - Urban Planning
- Master Thesis MT in Architecture/Urbanism

M.Sc. Transforming City Regions

- Urban Transformation I + II
- European Urban Policies & Territorial Governing Structures
- Research Module in Urban and Regional Transformation
- Integrated Project I – Transforming Urban Structure
- Integrated Project II – Evolution of Functional Urban Areas
- Integrated Project III – Networked Urban Systems in Europe
- Master Thesis

Specialist Groups

- Urban Design, Building Culture and Urban Historic Preservation
- Technical innovations and mobility
- Resources and Energy
- Shaping regional development

Revierknoten Raum

Rhenish mining area

- SpaceLab
- Integrated spatial strategy
- Competence Center SPACE

Cooperation Networks

- Expert Group Urban Historic Preservation
- Profile area ECPE of the RWTH Aachen
- EMA (Experience Mobility Aachen)
- RRI Hub (Responsible Research and Innovation)
- Center for Metropolitan Cities at RWTH Aachen University
- CityWorkshop
- Campus Mitte - Initiative

Graduate Schools

- Graduate School NRW “NEQ Sustainable energy systems in neighbourhoods“
- Robert Bosch Stiftung “Mittelstadt as a participatory city“
- Graduate School NRW “ACCESS“

Events

- Urban design colloquium
- Annual conference on urban historic preservation
- Annual exhibition architecture RWTH Aachen
- Neighbourhood Congress
- TCR Talks
